IUB NEST | Marketing Lead

June 2025

Directed the design, marketing, and management efforts for a campus utility platform and focused on UI/UX design and made sure the visual identity was consistent throughout the platform. Also handled promotional campaigns and user engagement strategies to increase the platform's visibility and adoption. I worked with the team to ensure smooth project execution and delivery.

Impact: Scaled the platform to 4,000+ total users with 1,500+ daily active users.

Volunteer Management Portal | Design & Management

Independent University, Bangladesh | December 2025

Directed the UI/UX design and system architecture for a volunteer management platform, spearheading the transition from manual tracking to a streamlined digital interface. By prioritizing intuitive navigation and structural organization, I enhanced volunteer coordination and collaborated across teams to ensure a cohesive, professional project execution.

Event & Certificate Verification Portal | UI/UX Designer & Project Coordinator

Independent University, Bangladesh | October 2025

Designed the user interface and overall workflow for an event and certificate management system. Focused on creating a clean, user-friendly experience to improve accessibility and usability. Contributed to project planning and coordinated with the team to ensure smooth execution. Worked on promoting system adoption and improving user experience through better design and communication strategies.
